

PURPOSE

The Red River Basin Commission is celebrating its **39th Annual Red River Basin Land & Water International Summit Conference** to be held **January 11 - 13, 2022**, at The Alerus Center, Grand Forks, ND. **“Rivers Divide and Rivers Unite - Together Again in 2022”** will continue to highlight the progress being made as we work together to achieve basin-wide commitment to comprehensive integrated watershed stewardship and management.

The conference goals are to acknowledge, celebrate and create awareness of how much progress is being made each year in the Red River Basin and reaffirm that we are overcoming our challenges, and we are all in this together.

The conference fosters international cooperation and identifies issues important to the Red River Basin citizens. It is a public forum for natural resources education, training and information dissemination useful for elected officials, watershed managers, educators, producers, environmentalists, businesses, decision makers and residents. The Red River Basin Commission continues to further their vision of a Red River Basin where residents, organizations and government work together to achieve basin-wide commitment to comprehensive integrated watershed stewardship and management.

CONFERENCE AT A GLANCE

The Annual Summit Conference has been bringing together individuals from across the Basin for nearly 40 years.

This year's conference **“Rivers Divide and Rivers Unite - Together Again in 2022”** will look at how residents, organizations and governments continue to work together to achieve basin-wide commitment to comprehensive integrated watershed stewardship and management in the Red River Basin.

This conference will educate our attendees on the issues being addressed in the basin. You will hear presentations about current efforts in many of Natural Resources Framework Plan's goal areas including Water Quality, Flood Damage Reduction, Soil Health and Water Supply.

The conference will continue to build on its celebration of Success Stories in the Basin with a series of Lightning Talks that offer an opportunity for many projects to be highlighted in 5-7 minute lightning presentations.

Success Stories

We are asking you to share a success story; a project or program that your organization has undertaken or is currently undertaking that contributes to any of the 13 NRFP goals. The Success Stories will be celebrated at our upcoming **39th Annual Conference**.

Please email your Success Stories to stacey@redriverbasincommission.org.

CONFERENCE GOALS

Under the RRBC vision “where residents, organizations and governments work together to achieve basin-wide commitment to comprehensive integrated watershed stewardship and management,” the goals for the 39th Annual Conference are to:

- ⇒ **Identify basin-wide priorities** to increase needed stakeholder awareness and participation and continue to foster international cooperation in water and soil use policies with respect to the Red River Basin Natural Resources Framework Plan;
- ⇒ **Review and celebrate accomplishments** with a vision of the future, recognize those helping shape today’s vision, honor best projects and programs involving stakeholders in the decision process and enhancing the quality of life for basin residents;
- ⇒ **Provide educational content and networking opportunities** for watershed managers, administrators and board members; conservation districts, county commissioners, councilors, reeves, mayors and council members, commodity groups, businesses, and provincial, state and federal agencies and grass roots citizens;
- ⇒ **Allow different perspectives to be heard** by decision makers in a mutually respectful forum.
